Spill Response Products

PREMIUM PLUS FLOOR SWEEP

Australian made, biodegradeable SpilMax® Premium Plus Floor Sweep is made from a special selection of recycled organic cellulose matter. It has a fine grade texture offering high performance.

Premium Plus has a rapid absorption rate and encapsulates liquids so they cannot leach back into the environment. This floor sweep meets the EPA criteria for disposal at land fill. Always check local disposal regulations.

Premium Plus Floor Sweep can be used to clean up hydrocarbon and water based liquids including oils, fuels, lubricants, hydraulic fluids, solvents, alcohols, paints (oil based), drying oils, pesticides, vegetable oils, cooking oils, animal fats, protein fluids, sewerage and class 3 flammable liquids.

This product is not suitable for corrosive or highly oxidising agents.

SpilMax® Premium Plus Floor Sweep is ideal for industrial workplaces, workshops, liquid storage areas, manufacturing facilities and farming.

TESTING:
USEPA Paint filter test 9095A

CODE	WEIGHT	DIMENSIONS
CH3000	10 kg	0.50mL x 0.40mW x 0.15mH
