

30L UNIVERSAL FLEET SPILL KIT

SpilMax® Universal Fleet Spill Kits are designed for use on work vehicles and heavy equipment. Ideal for mounting on walls in outdoor areas. The kit is light weight. The buckle doubles as a security feature and carry handles making it easy to carry the kit to a nearby spill.

The absorbents in a Universal Spill Kit are designed to absorb a wide range of liquids including water, oils, fuels, diesel, coolant, general workplace chemicals and common agricultural chemicals.

Since these absorbents also pick up water, they are not recommended for oil on water spills.

Spill kit instructions are on the outside of the kit for easy reference.

SPILL KIT	TOTAL WEIGHT	DIMENSIONS	REFILL
