

## 50L OIL & FUEL ECONOMY VEHICLE SPILL KIT BAG

SpilMax® Oil & Fuel Vehicle Spill Kit Bags are made of tough PVC that will keep the contents dry. These spill kits are ideal for stowing in vehicles in the boot or behind seats. They are also suitable to store in the cabin of trucks or heavy equipment. The strong carry handles allow the bags to be hung on the wall in spill prone areas. This spill kit is light weight and easy to carry.

The absorbents in the Oil & Fuel Spill Kit are designed to absorb a wide variety of plant and seed oils, hydrocarbons, petrochemicals and petroleum-based solvents.

Since the Oil & Fuel absorbents are hydrophobic, they repel water and float. They are recommended for oil on water spills and for use in wet work environments.

Spill kit instructions are on the outside of the bag for easy reference.

SPILL KIT	TOTAL WEIGHT	DIMENSIONS	REFILL
CHOFK16	4kg	0.50mL x 0.20mW x 0.50mH	CHOFK34
