

MADE IN AUSTRALIA

RUBBER FILLED SILT SOCKS

Silt and Sediment Control

Rubber Filled Silt Socks are environmentally compliant, tough, longer lasting alternative to traditional silt socks. It is also a perfect coir log replacement.

The Rubber Filled Silt Sock offers enhanced durability, exhibiting flexibility and resilience when driven over, ensuring an extended lifespan and increased potential for reuse.

FEATURES

- ✓ UV Stabilised HDPE Mesh
- ✓ One handling strap per metre
- ✓ Heavy duty straps made from 50mm Polyester Webbing
- ✓ Hi-vis yellow material
- ✓ Prefilled with Recycled Rubber Crumb

Product	Code	Length	Diameter
Rubber Filled Silt Socks	CHRFS01	1m	90mm
Rubber Filled Silt Socks	CHRFS02	2m	90mm
Rubber Filled Silt Socks	CHRFS03	3m	90mm

EROSION PRINCIPLE

Whenever reasonable and practical, priority needs to be given to preventing, or at least minimising soil erosion rather than allowing the erosion to occur and trying to trap the resulting sediment.
