

FLEXIBLE TANKS AND WATER BLADDERS

Liquid Containment

Self supporting flexible tanks and bladders are ideal for storing a wide variety of liquids. Connect flexible tanks and bladders in series for extra capacity. When empty they fold up for easy transport and storage. Sizes range to meet capacities up to 200,000L.

FEATURES

- ✓ Fusion welded
- ✓ 1.5" barbed air vent
- ✓ 1" and 2" inlet / outlet with cap

APPLICATIONS

- Irrigation and agriculture
- Construction sites and remote work areas
- Firefighting
- Waste water capture and management
- Hazardous chemical storage
- Rainwater or potable water storage tanks
- Liquid food products and edible oils

MATERIALS

- Various grades and strengths of materials for potable water, food grade or chemical use
- High tensile, puncture, tear and abrasion resistant
- UV resistant

ACCESORIES

- Cover
- Ground mat
- Repair kit
- Carry bag

CHATOYER
