

CHMSK01

240L Oil & Fuel Marine Spill Kit

SpilMax[®] Oil & Fuel Marine Spill Kits are designed for rapid response to hydrocarbon spills on water. Ideal for marinas, ports, barges, and foreshore works. The hydrophobic absorbents repel water and float, even when saturated. Effective on hydrocarbons, plant oils, seed oils, and petroleum-based solvents. Floating booms in mesh sleeves feature snap hooks and rope for easy joining and retrieval. Spill kit instructions are on the outside of the bin for easy reference.

Product	Code	Qty
