

Debris Boom

Stormwater Protection

TRAP UNWANTED FLOATING CONTAMINANTS IN WATERWAYS

Chatoyer Debris Booms form a floating barrier to trap and redirect floating waste in waterways. Designed for permanent or temporary use, they assist with pollutant control in rivers, ponds and stormwater channels. Made with Elvaloy casings, UV-stabilised HDPE skirts, and closed-cell foam flotation, each boom is built for durability. Standard or custom designs are available to suit site conditions and debris types.

Product Code	Length	Height	Draft	Freeboard
CHDRB01	15m	450mm	300mm	150mm

Specifications	
Fabric	370gsm UV Stabilised High Density Knitted HDPE Heavy Duty 1020gsm XR-5
Flotation Chambers	Closed Cell Crumble Free Foam Flotation
Connector	Standard Universal ASTM F962 Z-Connectors
Ballast Chain	10mm Galvanised Chain Ballast Enclosed in PVC Pocket
UV Resistant	Yes up to 5 years

APPLICATION

- Ponds
- Rivers
- Canals
- Lakes
- Stormwater Channels
- Wetlands

DISCLAIMER: Chatoyer is not responsible for any product malfunctions, damage, or performance issues resulting from misuse, unauthorised modifications, improper installation, external environmental factors, or failure to follow recommended usage guidelines. This includes, but is not limited to, damage caused by accidents, natural disasters, power surges, or use with incompatible accessories. All warranties and support services apply only to products used in accordance with the manufacturer's instructions and within the intended operating conditions.
