

## Ultra-Drain Guard High Capacity

### Stormwater Protection

### HIGH-CAPACITY STORMWATER PROTECTION FOR DEMANDING SITES

The Ultra-Drain Guard High-Capacity Oil & Sediment is a heavy-duty catch basin insert engineered to capture large volumes of sediment, debris and hydrocarbons from stormwater runoff. Manufactured from needle-punched polypropylene geotextile, it delivers high flow performance while retaining up to 136 kg of sediment, dirt and debris. Ideal for industrial and construction environments.

Product Code	Description	Length	Width	Height	Oil Absorption Capacity
CHU9393	Drain Guard - High Capacity	1.5m	1.5m	900mm	7L

Specifications	
Sediment Load Capacity	136kg
Product Material	270gsm, Nonwoven Polypropylene Geotextile
Pore Size	180 microns
UV Resistance	70% strength retained after 500 hours
Flow Rate	60L/m <sup>2</sup> /s
Permittivity	0.5 sec <sup>-1</sup>

### APPLICATION

- Construction and civil works sites
- Industrial facilities and yards
- High-sediment stormwater drains
- Areas with oil, grease and debris runoff

**DISCLAIMER:** Chatoyer is not responsible for any product malfunctions, damage, or performance issues resulting from misuse, unauthorised modifications, improper installation, external environmental factors, or failure to follow recommended usage guidelines. This includes, but is not limited to, damage caused by accidents, natural disasters, power surges, or use with incompatible accessories. All warranties and support services apply only to products used in accordance with the manufacturer's instructions and within the intended operating conditions.
