

Ultra-Drum Spill Pallet Standard Model

Spill Containment on Land

RELIABLE, COMPLIANT SPILL CONTAINMENT SYSTEM

Ultra-Drum Spill Pallet Standard Model is built from durable polyethylene (LLDPE) for chemical resistance, including acids and corrosives. Designed for easy handling, its low-rise walls allow safe pouring and access. Supports up to 2721kg (4-drum) or 1360kg (2-drum) and meets WHS and EPA spill containment standards. Bright yellow, translucent sidewalls provide quick leak detection, ensuring compliance, safety, and reliable containment for drums in general industrial use.
