

Ultra-IBC Spill Pallet

Spill Containment on Land

MAXIMISE SPACE WITH DOUBLE-STACKED IBC STORAGE

Constructed for maximum strength and compliance, the Ultra-IBC Spill Pallet supports up to 7257kg UDL, allowing safe double-stacking of IBC containers to save floor space. With a 1514L sump capacity, it meets EPA spill containment standards. Constructed from 100% polyethylene (LLDPE), it resists UV, rust, corrosion, and most chemicals. Removable grating and components allow fast clean-up, while textured decking ensures secure placement of various IBC sizes.

Product Code	Description	Length	Width	Height	Capacity
CHU1057	Ultra-IBC Single Spill Pallet	1.4m	1.4m	800mm	1,514L

Specification	Value
Material Type	Polyethylene (LLDPE)
Warranty	5 Years
Chemical Resistant	Yes but not for aggressive solvents or highly corrosive acids.
UV Resistant	Yes
Corrosion Resistant	Yes

APPLICATION

- Warehouses
- Manufacturing Plants
- Transport and Logistics
- Laboratories
- Maintenance Areas
- Outdoor Storage Sites
