

## Ultra-Pipe Sock®

Stormwater Protection

### HYDROCARBON FILTER FOR STORMWATER DISCHARGE PIPES

The Ultra-Pipe Sock is a durable, high-flow filter designed for stormwater discharge pipes and headwalls. Made with Ultra-Filter-Tex, it captures hydrocarbons such as oils and fuels while allowing large volumes of water to pass through. Easy to install and maintain, it supports compliance and environmental protection. It also helps reduce sediment inflow during high water events, making it a reliable long-term option.

Product Code	Description	Length	Width	Height	Absorbent Capacity	Weight
CHU9705	Pipe Sock	1.5m	200mm	200mm	6L	1kg
CHU9706	Pipe Sock	1.5m	300mm	300mm	9L	1.5kg

Specification	
Material Type	Ultra-Filter-Tex
Flow Rate	102L/m <sup>2</sup> /sec
Nominal Hydrocarbon Capacity	6.7L/m <sup>2</sup>
Pore Size	105 microns
Puncture Resistance	32kg
Mullen Burst	15kg/cm <sup>2</sup>
UV Resistant	Yes
Chemical Resistant	Yes

### APPLICATION

- Industrial Sites
- Construction & Civil Projects
- Stormwater Management Systems
- Environmental Monitoring Zones
- Roadways and Carparks

**DISCLAIMER:** Chatoyer is not responsible for any product malfunctions, damage, or performance issues resulting from misuse, unauthorised modifications, improper installation, external environmental factors, or failure to follow recommended usage guidelines. This includes, but is not limited to, damage caused by accidents, natural disasters, power surges, or use with incompatible accessories. All warranties and support services apply only to products used in accordance with the manufacturer's instructions and within the intended operating conditions.
