

## Ultra-Spill Deck Bladder System

### Spill Containment on Land

### CONCEALED BLADDER DEPLOYS INSTANTLY FOR MAJOR LEAKS

The Ultra-Spill Deck Bladder System combines low-profile drum storage with full EPA-compliant containment. With a deck height of just 146mm, it ensures safe loading without equipment while saving floor space. A concealed 250L bladder automatically deploys for large spills, while the sump captures minor leaks. Available in 1, 2, or 4-drum modules, it features durable polyethylene (LLDPE) construction, optional ramp access, and a five-year warranty.

Product Code	Description	Length	Width	Height	Weight
CHU1320	Ultra-Spill Deck 1 Drum Bladder System	750mm	650mm	150mm	291L
CHU2329	Ultra-Spill Deck 2 Drum Bladder System	1.3m	750mm	150mm	333L
CHU2330	Ultra-Spill Deck 4 Drum Bladder System	1.4m	1.3m	150mm	416L

Specifications	
Material Type	Polyethylene (LLDPE) durable, corrosion-resistant, and non-reactive
Warranty	5 Years
